

SAMUEL ARONEY

I am an author of 3 high-impact journal articles in biochemistry and molecular biology. I have also constructed a 4000 line analytical dashboard¹ with underlying database during an internship with Zooniverse² while completing a DPhil on bacterial chemotaxis at the University of Oxford funded by a Clarendon Award.

I am currently searching for a Postdoctoral Researcher position in microbiology, molecular biology and genomics. I am also interested in data analysis and statistical programming.
